

2024 President's Report AGM:

- 2024 was another very busy year, with many improvements to our ranges!
- The new rifle shed pad was poured/roof completed.
- Still need 25/50/100-meter target backstops.
- Still need berm on west side of new rifle range.
- This berm will also be part of a new 100-meter range.
- This will also be the start of a new road to access the shotgun tower/pistol range.
- The remaining c-cans have been painted, improving the looks of these containers.
- The recent burning of many wood piles improved the overview of our ranges.
- Need to improve the road to upper range/camp area, as is too soft in rain!
- Completed installing 2 gates/fences on East berm area w/signage. This will ensure no access to rifle range during shooting.
- After approval of the new rifle range, the old rifle shed will be dismantled, with that material used to improve roof of old shed and forming a roof between two c-cans by Wikki-up to protect our tractor.
- New rifle directors have put on 4 F-Class matches this year, creating lots of interest!
- Black Powder & Cowboy Action Shooting are still active.
- Rendezvous moved their dates to July, thus freeing up the rifle range for hunters to sight in their rifles in August.
- Once the new west berm is completed & new 100-meter bay created, this will also provide another venue to sight in rifles. It will further our goal to create multi-use ranges to maximize the number of sites in use at the same time!
- I look forward to more activity with our pistol and shotgun disciplines in 2025.

- One act of vandalism this year, when someone damaged a target. Most of our membership are respectful of club property!
- I would be remiss if I did not thank the volunteers who have given so much of their time and energy to making our Club one to be proud of!
- I encourage members to invite a friend or youth to the range to introduce them to the joys of recreational shooting in 2025!
- Remember to be safe, have fun, be safe!
